

MSRPS Maryland State Retirement and Pension System

Press Release: Agency Seeks to Add Four Senior Investment Analysts

Investment Division Will Expand 25% with New Hires.

Baltimore, MD (April 21, 2010)

The Maryland State Retirement Agency has begun a search to fill four Senior Investment Analyst positions within its Investment Division. These positions will work as part of a team that ensures prudent investment of the Maryland State Retirement and Pension System's \$35 billion in assets.

"The Investment Division manages a global portfolio with significant commitments in private equity, absolute return, real estate, real return and credit strategies, as well as public equities and traditional fixed income," said Mansco Perry III, Chief Investment Officer of the Maryland State Retirement and Pension System. "This is a good opportunity for experienced investment professionals who would like to play an active role in shaping and strengthening the Retirement System's portfolio."

With support from the System's investment consultants, the Investment Division recommends asset allocation, provides oversight of external managers and implements initiatives of the System's Board of Trustees.

More information about the Investment Analyst positions with the Maryland State Retirement Agency is available [in this document](#).

###

The Maryland State Retirement and Pension System is charged with the fiduciary responsibility for properly administering the retirement and pension allowances of 116,000 retirees and beneficiaries as well as the future benefits for over 251,500 active participating members. These groups include state government employees, teachers, law enforcement personnel, legislators, judges and local government employees and fire fighters whose employers have elected to participate in the system.
